envi-8

What are Envi Blocks?

These blocks are an all wood product with no additives which are specifically designed to be used as firewood in **wood stoves**, fireplaces, fire pits and wood furnaces. **Envi Blocks** are made of the same material (hardwood sawdust, shavings, etc.) as our wood pellets, but are mechanically compressed into larger block sizes. Our **Envi Block** is approximately 4" x 4" x 10 1/4" in size with an average weight between 6 and 7 pounds. Our **Envi-8 Block** measures approximately 3 1/4" x 2 3/4" x 9 1/2" with an average weight between 3 and 4 pounds. Both the **Envi** and the **Envi-8** are packaged and sold in pallet quantities.

ENVI BLOCKS COMPARED TO MOST CORDWOOD

- **More Heat** - Higher density
- **Burn Hotter** - Lower moisture content
- **Burn Cleaner** - Less ash residue - Less particle emissions - Less creosote
- **Less Mess** - No insects - No dirt - No fungus - No mold
- **Convenient** - Occupies less space - Easier to store - Can be stored inside
- **Saves Time** - Less handling - No seasoning - No splitting

INSTRUCTIONS / WARNINGS FOR USAGE OF ENVI AND ENVI-8 BLOCKS

- Use inside only properly maintained and ventilated wood burning stoves, fireplaces, and furnaces.
- We recommend you consult the manufacturer of your wood burning appliance on use of this product.
- To Start - establish a bed of coals using kindling before adding 1 or 2 blocks.
- Add additional blocks as appropriate for the size of your wood burning appliance.
- Maintain the desired temperature and burn time by adjusting air flow and spacing between blocks.
- Avoid overheating by controlling air and not over filling your fire box.
- Do not stack blocks too close to glass doors/windows of stoves, fireplaces.
- Store in Dry Place.
